General Index 1988

Analysis of pressure losses across pressure reduction units: *J. Thompson* 23
The application of sensors in combustion control systems: *N. Ovenden* 117
Bringing gas to the wool market: *P.J. Casper* and *H.M. O'Malley* 55
The British economy – past, present and future: *J. Beetham* 2
Carburetted water-gas: *T. Mitchell* 84
The Chartered Engineer and increasing pressures: *S. Churm* 251
Condensing boilers in commercial premises: *T. Enga, P. Elliott* and *D. Hampton* 282
Developments in pipe repair clamps and collars: *C. Ayres* 208
The Duddon crossing: *A.S. Bennett* and *A. Newton* 299
Energy efficiency as a marketing tool: *E. Clatworthy* and *P.A. Chester* 66
The Engineering Council in the Regions: *G. Anthony* 235
Engineering update: *T. Douglas* 164
Environmental Digest 45, 237, 257
Gas engineering into the next century: *R.W. Hill* 343
Growth prospects for gas in the American market – an analysis: *G.H. Lawrence* 140
IGE News 15, 47, 79, 111, 155, 199, 231, 263, 288, 331
The incredible Incabus: *C.J. Webb* 42
Investment appraisal: *T.R.D. Brown* 259
Live insertion: a push in the right direction: *A. Thompson* 176
Mains breakage – a local problem?: *N. Proudman* 10
Membership changes 54, 116, 267, 341
Membrane gas separation – current status and future developments: *T. Foley* 89
The new age ... of central heating: *R.J. Clements* 98
New Ordinary Members of Council 202
A new concept in infra-red heaters: *R.A. Freeman* 72
News from Industry 20, 52, 137, 206, 268, 293, 336
Not only gas – liquids too!: *G.J. Collins* 35
The Oil of Grain: *F.M. Church* 319
People ... 18, 50, 82, 114, 159, 203, 234, 266, 290, 334
President 1988-89 199
Presidential Address – Getting things into perspective: *M.J.F. Olden* 187
Recurring themes in R&D at the Midlands Research Station: *W.E. Francis* 218
Research and development in coal utilisation: *A.D. Dainton* 273
A simple expedient for gas service cut offs: *P.S. Clough* and *P. Smith* 31
Spinseal: The Glasgow field trial: *K.E. Arnold* and *F. Hall* 124
Universal gas distribution research and development – a summary: *D. Needham* 166
Unusual incidents 280
Ventilation and heat recovery: *D.J. Nevrala* and *J.P. Lilly* 240
Vice-President 1988-90 199
World Gas Conference preview 131

Author Index 1988

Anthony, G. *The Engineering Council in the Regions* 235
Arnold, K.E. and Hall, F. *Spinseal: The Glasgow field trial* 124
Ayres, C. *Developments in pipe repair clamps and collars* 208
Beetham, J. *The British economy – past, present and future* 2
Bennett, A.S. and Newton, A. *The Duddon crossing* 299
Brown, T.R.D. *Investment appraisal* 259
Casper, P.J. and O'Malley, H.M. *Bringing gas to the wool market* 55
Church, F.M. *The Oil of Grain* 319
Churm, S. *The Chartered Engineer and increasing pressures* 251
Clatworthy, E. and Chester, P.A. *Energy efficiency as a marketing tool* 66
Clements, R.J. *The new age ... of central heating* . 98
Clough, P.S. and Smith, P. *A simple expedient for gas service cut offs* 31
Collins, G.J. *Not only gas – liquids too!* 35
Dainton, A.D. *Research and development in coal utilisation* 273
Douglas, T. *Engineering update* 164
Enga, T., Elliott, P. and Hampton, D. *Condensing boilers in commercial premises* 282
Foley, T. *Membrane gas separation – current status and future developments* 89
Francis, W.E. *Recurring themes in R&D at the Midlands Research Station* 218
Freeman, R.A. *A new concept in infra-red heaters* . 72
Hill, R.W. *Gas engineering into the next century* .. 343
Lawrence, G.H. *Growth prospects for gas in the American market – an analysis* 140
Mitchell, T. *Carburetted water-gas* 84
Needham, D. *Universal gas distribution research and development – a summary* 166
Nevrala, D.J. and Lilly, J.P. *Ventilation and heat recovery* 240
Olden, M.J.F. *Presidential Address – Getting things into perspective* 187
Ovenden, N. *The application of sensors in combustion control systems* 117
Proudman, N. *Mains breakage – a local problem?* 10
Thompson, A. *Live insertion: a push in the right direction* 176
Thompson, J. *Analysis of pressure losses across pressure reduction units* 23
Webb, C.J. *The incredible Incabus* 42
